

Dairylac® 80

Description:

Dairylac® 80 is a high lactose feed ingredient manufactured by roller drying fresh liquid whey permeate. This granular product contains beta-lactose, the sweetest form of lactose. Use Dairylac® 80 as a source of lactose in dry feeds. Typical inclusion levels range between 5-25% of the diet, depending on the age and weight of the animal.

Analysis:

	Typical Value
Crude Protein, %	3.0
Lactose, %	80.0
Ash, %	9.0

Features:

- Consistent, high lactose content
- Unique drying process forms beta-lactose, the sweetest form of lactose
- Dried fresh daily to ensure no deterioration of nutrients
- Granular, non-hygroscopic, free-flowing particles
- Extensively university researched and industry proven
- Available in multiple sizes including bags, totes, and bulk
- Accepted world-wide as a quality feed ingredient
