

Nutri-Pal

Description:

Nutri-Pal is a high quality ingredient containing all the benefits of real dairy chocolate, yeast, and other functional components. Nutri-Pal is a functional, easily digestible, and palatable ingredient for lactating sows. The typical inclusion rates of Nutri-Pal are 5% for sow diets beginning 3-5 days prior to farrowing and continuing throughout lactation.

Analysis:

	Typical Value
Crude Protein, %	14.0
Crude Fat, %	6.0
Total Sugar, %	50.0

Features:

- Excellent product consistency and flowability
- Enhances feed intake during sow lactation
- Stimulates digestion and feed utilization in lactating sows
- Exhibits consistent research-proven benefits in sow performance
- Reduced sow weight loss and a faster return to estrus after weaning
- Dramatically impacts overall farm profitability
- Easily added to the sow lactation feed as a top dress or in the feed.
- Available in multiple package sizes including bags, totes, and bulk.
- Accepted worldwide as a quality feed ingredient
