

# Nutri-Sure

## Description:

**Nutri-Sure** is a feed ingredient produced by the formula specific blending of cereal fines from the production of breakfast cereals. Nutri-Sure consists primarily of cooked oat grains, wheat grains and sugar. Nutri-Sure is a high quality feed ingredient for all swine feeds, but particularly the baby pig where excellent digestibility and palatability are most important. The recommended inclusion rate ranges from 5% to 40% of the diet.

## Analysis:

	Typical Value
Crude Protein, %	8.0
Crude Fat, %	4.5
Total Sugar, %	21.0

## Features:

- Specific blend of high-quality, food-grade, cooked cereal grains
- Predominantly highly digestible cooked oat cereal
- Consistent nutrient density
- Uniform flavor, aroma and appearance
- Consistent nutrient density
- Exhibits research-proven palatability and performance benefits
- Economical alternative to steam-rolled oats or simple sugars
- Available in multiple package sizes including bags, totes and bulk
