

# Sweet Pro 50

## Description:

**Sweet Pro 50** is a formulated blend of soy isolate and concentrated proteins along with simple sugars yielding a very well balanced essential amino acid profile with excellent palatability and digestibility factors. Typical inclusion levels are 4 – 12% in nursery pig diets.

## Analysis:

	Typical Value
Crude Protein, %	50.0
Crude Fat, %	2.0
Total Sugars, %	17.0

## Features:

- Well balanced essential amino acid profile.
- Low in anti-nutritional components.
- Contains purified soy proteins.
- Economical replacement for other specialty proteins.
- Highly palatable due to sweetness of simple sugars.
- Ability to replace a portion of other simple sugars in the diet.
- Free-flowing.
- Available in multiple sizes including bags, totes and bulk.
