

Protein Blend SS

Description:

Protein Blend SS is a formulated blend containing high-quality soy protein ingredients. The soy protein isolate and concentrate in Protein Blend SS yields a well-balanced essential amino acid profile with excellent digestibility. Typical inclusion levels are 4 - 12% in nursery pig diets.

Analysis:

	Typical Value
Crude Protein, %	67.0
Crude Fat, %	2.3
M.E. (calculated)	3,711 kcal/kg

Features:

- Contains purified soy proteins-soy isolate and soy concentrate.
- Higher protein content compared to other specialty protein ingredients.
- Well-balanced essential amino acid profile.
- Highly-digestible amino acids (high standard ileal digestible amino acid levels).
- Low in anti-nutritional components.
- Economical replacement for other specialty proteins (lower cost per unit of protein).
- Free-flowing.
- Available in bulk and totes.
