

DRIED MOZZARELLA CHEESE

Description:

Dried Mozzarella Cheese is a high-quality, spray-dried dairy ingredient produced from real Mozzarella cheese for use in pet food applications. Made with ingredients that are “Natural” and “Natural with added minerals” per AAFCO, Dried Mozzarella Cheese provides a concentrated source of milk proteins and milk fat for dogs and cats. With its white to cream-colored appearance and characteristic cheese aroma, it can be used as a nutritive palatability enhancer in pet foods, either as a coating or incorporated directly into the formulation mix. Typical inclusion levels range from 1 to 10%, giving formulators flexibility across dry pet food, treat, topper, and specialty pet nutrition applications

	Typical Value
Crude Protein, %	36.0
Crude Fat, %	36.0
Ash, %	11.0

Features:

- Real Mozzarella cheese for a variety of pet applications.
- All ingredients are “natural” or “natural with added minerals” per AAFCO.
- Easy-to-handle powder to coat topically or mix evenly into formulas.
- High quality, digestible dairy protein, and fat.
- Sustainable source of Mozzarella cheese.
- Produced in SQF- and EU-audited facility.
- Available in bags and totes.
